

1.	Protect the furniture against direct Sunlight. Lack of protection will result in discoloration of the leather.	
2.	Keep furniture a minimum of 4 feet away from heat sources such as radiators, fireplaces, etc.	
3.	Avoid contact with alcohol, thinner, benezene/benzol, etc. Solvents such as these can cause color and quality deterioration.	Alcoho
4.	Regularly dust off the furniture with a soft, dry cloth.	
5.	Spills on your furniture require immediate attention. Lightly dampen a cloth with mild soap and distilled water then dab the spot carefully, allowing it to air dry. Do not soak the leather during cleaning.	

6.	Careful vacuum cleaning on a regular basis is recommended, using the soft brush nozzle on the vacuum cleaner. Before using any cleaning agent or leather protection, please TEST ON A HIDDEN AREA FIRST, as some products can damage the finish.	
7.	Do not rub the soiled area. Use light, circular motions, working towards the center of the spot or stain.
