

# Infinity X1<sup>®</sup>

August 15, 2024

Dear Costco Member,

Costco records indicate you, or one of your add-on members, have purchased item #1718544 Infinity X1 5000 Lumen Flashlight between November 2023 and July 2024.

Out of an abundance of caution, Infinity X1 wants to make sure that all members are properly informed of heat and safety warnings on the packaging, manual and on the product. LED Flashlights can create intense light beams that give off heat and can be harmful or cause damage if the lens is set on a surface. Please read all warnings and caution statements on packaging, product and in manuals.

The Heat Safety Lock feature works by measuring the ambient light that bounces off surfaces and reflects into the ambient light sensor in the flashlight. Some surfaces do not reflect light and therefore the Heat Safety Lock feature will not work. For example, dark surfaces, textured surfaces and transparent surfaces DO NOT WORK to activate the Heat Safety Lock feature. Other surfaces may also fail to activate the Heat Safety Lock feature.

## READ ALL INSTRUCTIONS AND CAUTIONS BEFORE USE

- Flashlight can create intense light beams that give off heat and can be harmful or cause damage if lens is set on a surface while on.
- Do not place any material on or near the top of the flashlight while on.
- Do not place flashlight on any surface while on.
- Do not touch the top of the flashlight while on.
- Turn off flashlight before setting down.
