The Quaker Oats Company is recalling the specific granola bars and granola cereal listed above because they have the potential to be contaminated with Salmonella, an organism which can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Healthy persons infected with Salmonella often experience fever, diarrhea (which may be bloody), nausea, vomiting and abdominal pain. In rare circumstances, infection with Salmonella can result in the organism getting into the bloodstream and producing more severe illnesses such as arterial infections (i.e., infected aneurysms), endocarditis and arthritis.

To date, Quaker has received no confirmed reports of illness related to the products covered by this recall. No other Quaker products are impacted by this recall.

If you have any of the recalled product in your possession, do not eat it; please return the item to Costco for a full refund.
